We believe passionately in combining health, comfort and performance. WORK & MOVE is software that demonstrably and structurally improve the working comfort and efficiency of each individual knowledge worker and of the organisation as a whole.

WORK & MOVE is your personal coach, providing enough alternation between digital screen work and mental and physical movement. Insight and feedback are given on your computer behaviour.

BakkerElkhuizen WORK & MOVE

Tips: proactive personal tips for smarter and healthier working. 
Insight gain: insight into your progress on health, skills, movement and concentration on tasks.
Workspace passport: record your personal workstation settings in your passport.
Reward: WORK & MOVE rewards healthy behaviours. You will receive trophies, cups and compliments for healthy behaviour.
Variation: by varying your posture, moving more and working smarter your concentration and productivity increases.

Product code: BNEPITSTOP51Y3

BakkerElkhuizen AltMOUSE

Personalized learning: Live coaching on only the shortcuts relevant to the individual.
Work smarter: Reducing slow and pain causing mouse use by over 50%
Training on the job: No downtime for learning relevant shortcuts
Feedback: Positive feedback and reports to encourage behavior change.
Efficiency gains: shortcuts are on average 30% faster than using a mouse.

Product code: ESCWAM
Interactive: Direct feedback on typing errors for continuous improvement.
E-learning: Online access enables practice anywhere, anytime.
Feedback: Personalized advice for keys that need extra attention.
Attitude: Being able to touch type has a positive effect on work performance.
Inclusive: Globally recognized typing exams included.
Ergonomics: Touch typists adopt better postures as they look up at the screen.

Product code: BNEWMTICKEN
Safety screens to place for extra protection against the corona virus. We have developed three different walls to also guarantee the 1.5 meter society in the office by placing these safety screens. The safety screens in our range are very strong, durable and 100% recyclable.

Why safety screens’ COVID19 has a lasting influence on our office environment. The normal of “the new 2 meter office” requires hygiene, discipline, sufficient distance and safety. Working safe and protected with the computer becomes essential.

BakkerElkhuizen BE Safety Screens U-Shape

Safety: with BE Safety Screens you and your colleagues remain at a safe distance.
Material: both PET felt and acrylic are 100% recyclable.
Simple: BE Safety Screens are easy to install and clean.

Product code: (Multiple versions)

Recycled material: BE Safety Screens are made of recycled material processed from plastic bottles.
Hygiene: BE Safety Screens are easy to clean.
Safety: With BE Safety Screens you and your colleagues remain at a safe distance.

Dimensions: 1600 x 0 x 600 mm (W x D x H)
Product code: (Multiple versions)
Unnatural postures which occur using a standard mouse increase the risk of discomfort in wrists and forearms. Ergonomic mice reduce muscle tension in comparison with standard flat mouse devices and are much more comfortable. There are many options and the most suitable depends on the type of work carried out, existing injuries and personal preference.

**BakkerElkhuizen PRF Mouse Wireless**

- **Design:** its black colour gives the PRF Mouse a sleek design and luxurious look.
- **Wireless:** the mouse has a wireless range of up to 20 metres.

Compact keyboards brings the mouse within comfortable reach, thereby reducing stress on the arms and shoulders. Using a compact keyboard is more comfortable than using standard keyboards (Van Lingen et al., 2003).

Around 90% of users never or rarely use the numeric part of the keyboard (Cakir, 2008) so for the most part it is not required. When the numeric pad is used it should be possible to place it for left or right handed use.

### UltraBoard 960 Compact Standard

- **Narrower**: despite the fact that this keyboard includes a numerical keypad, it is still considerably narrower than a “normal” keyboard.
- **Concave keys**: the surface of the keys is designed to automatically guide your fingers to their center.
- **Size**: because of its compact size, this keyboard will easily fit in your backpack, so you can take it with you wherever you go.
- **Color**: the UltraBoard 960 has white keys with dark letters.
- **USB hub**: two easy-to-reach USB ports.
- **Ideal**: for employees with a permanent workstation who want to create more space on their desk.

- **Dimensions**: 363 x 147 x 19 mm (W x D x H)
- **Weight**: 628 gr
- **Product code**: BNEU960SCUS (Multiple versions)

### BakkerElkhuizen UltraBoard 950 Wired

- **Compact**: The keyboard is thinner, narrower and shallower than the S-Board 840.
- **Ergonomic**: Its compact shape enables you to adopt a better working posture, with fewer lower arm complaints as a result.
- **Modern**: The UltraBoard 950 has a modern and stylish design.
- **Keys**: A light keystroke, dark letters on a light background and less noise when typing.

- **Dimensions**: 285 x 147 x 19 mm (W x D x H)
- **Weight**: 455 gr
- **Product code**: BNEU950US (Multiple versions)
BakkerElkhuizen UltraBoard 950 Wireless

Compact: The keyboard is thinner and less wide and deep than its predecessor, the UltraBoard 940.
Ergonomic: Because of its compact form you will adopt a better work posture, resulting in fewer forearm problems.
Modern: The UltraBoard 950 Wireless has a modern and stylish design.
Keys: A light key touch, dark letters on a light background, and less noise while typing.
Dimensions: 285 x 147 x 19 mm (W x D x H)
Weight: 430 gr
Product code: BNEU950WUS (Multiple versions)

UltraBoard 955 Numeric

Suitable: the UltraBoard 955 Numerical is the ideal keyboard for you if you regularly have to enter data and often use spreadsheets and financial software.
Alternate: using a stand-alone numerical keyboard allows you to switch between left- and right-handed data entry, which increases both your comfort and your productivity as you work.
Quality: the laptop-style keystroke (with a scissors mechanism instead of a membrane system) reduces the volume of your typing and offers better sound absorption.
Dimensions: 87 x 147 x 19 mm (W x D x H)
Weight: 134 gr
Product code: BNEU955NUM

BakkerElkhuizen UltraBoard 940

Double connectivity: USB cable or Bluetooth.
Multi-pairing: Up to 5 devices.
Keys: Full size responsive keys with dark letters on a light background for easier viewing.
Compatible: Mac and Windows OS.
Compact: For a healthier posture.
Ultra thin: Only 0.75 inches.
Dimensions: 285 x 147 x 19 mm (W x D x H)
Weight: 430 gr
Product code: BNEU940US (Multiple versions)

BakkerElkhuizen S-board 840 Design USB

Handy: Multimedia keys and 2 USB ports.
Optimal layout: Full size keys, extra wide space-bar and easy access arrow keys.
Numeric: Optional numeric pad available.
Ergonomic: Responsive typing feeling for touch typists.
Mobile: Only 0.8 inches thick and 1 lb.
Dimensions: 305 x 165 x 20 mm (W x D x H)
Weight: 480 gr
Product code: BNES840DUS (Multiple versions)
BakkerElkhuizen S-board 840 Design No Hub

**Optimal layout:** extra wide space-bar and user-friendly positioned arrow keys
**Mobile:** only 2 cm thick and lightweight
**Ergonomic:** pleasurable typing feeling (shear mechanism instead of membranes)

- Dimensions: 305 x 165 x 20 mm (W x D x H)
- Weight: 480 gr
- Product code: BNES840DNHUS

BakkerElkhuizen S-board 840 Design Numeric

**Compatible:** Pair with the S-board 840 or the UltraBoard 940 compact keyboard.
**Including:** Calculator functionality.
**Smart:** Extendable USB cable.
**Quality:** Comfortable responsive keys.
**Unique:** Multiple calculation shortcut keys for quick number processing.
**Connection:** USB.

- Dimensions: 95 x 165 x 21.5 mm (W x D x H)
- Weight: 120 gr
- Product code: BNES840DNUM

BakkerElkhuizen Q-board

**Improved posture:** Decrease reach to the mouse.
**Conventional:** Desktop PC key Caps.
**Numeric pad:** Integrated.
**Practical:** 10 extra multi media keys.
**Ergonomic:** Arrow keys are easy to find.

- Dimensions: 336 x 165 x 32 mm (W x D x H)
- Weight: 690 gr
- Product code: BNEQB85

Goldtouch Adjustable V2

**Meets individual needs:** Adjust keying position both vertically and horizontally for increased comfort.
**Ergonomic:** Compact design means less reaching to operate the mouse.
**Keys on the left side:** Better allocation of work between left and right arm.
**Additional:** Wrist rest (BNEGTWR).
**Connection:** PS2 and USB.

- Dimensions: 388 x 178 x 25 mm (W x D x H)
- Weight: 1.2 kg
- Product code: BNEGTBUS (Multiple versions)
Goldtouch Travel Go2

Adjustable: 0° - 30° adjustment along the horizontal and vertical plane.
Ergonomic: Compact design means less reaching to use the mouse.
Mobile: Folds in half for storage and traveling.
Options: Wired and Bluetooth versions available.
Connection: USB.

Dimensions: 343 x 152 x 22.9 mm (W x D x H)
Weight: 500 gr
Product code: BNEGTTUS (Multiple versions)

Goldtouch Numeric

Multi-functional: Escape, Backspace, Tab and other useful keys.
Extra: 2 USB ports (left and right).
Colours: Available in black or white.

Dimensions: 153 x 97 x 31 mm (W x D x H)
Weight: 300 gr
Product code: BNEGTWNUM (Numeric White)
Product code: BNECTBNUM (Numeric Black)

ErgoDelta Split Keyboard

Horizontal setting range: 0°-30° adjustable for comfortable keying position.
Vertical setting range: 0°-16° adjustable for comfortable keying position.
Ergonomic: White keypads with black characters for better contrast.
Compact size: Short reaching distance to mouse.
Detachable wrist rest: For extra comfort.

Dimensions: 383 x 256 x 42 mm (W x D x H)
Product code: BNEEDUS
Notebook stands raise the screen of a laptop to a comfortable viewing height. This places much less stress on the neck enabling more comfortable work.

BakkerElkhuizen notebook stands that have an inbuilt document holder have been independently tested. Our stands increase productivity by 17%, reduce stress on the neck by 32% and result in a 21% increase in comfort (Lindblad et al., 2004).

**ProStand**

- **Design:** perfectly matches your MacBook and it only weighs 125 grams (4.5 oz).
- **Adjustable:** easily adjustable with three height settings.
- **Ideal:** attaches to the base of your MacBook and is always with you.
- **Protection:** protects your MacBook against minor bumps and damage.
- **Workspace:** easily use your MacBook as a second screen.
- **Functional:** ports and ventilation outlets are not blocked.

**Dimensions:** 310 x 219 x 15 mm (W x D x H)
**Weight:** 125 gr
**Product code:** BNEUSMBP1317

**BakkerElkhuizen UltraStand**

- **Unique:** the thinnest and lightest notebook stand ever.
- **Made-to-measure:** fits every type of laptop, including those with docking station ports.
- **Ergonomic:** laptop screen always at the correct height
- **Convenience:** always attached so never forgotten.
- **Portable:** create a mobile workstation wherever it’s used

**Weight:** 250 gr
**Product code:** BNEUSMCRO1319 (13" MacBook Pro/Air)
**Product code:** BNEUSMCRO1519 (15" MacBook Pro)
BakkerElkhuizen Ergo-Q 220

- **5 height settings:** 4.3 - 9.4 inch elevation.
- **Patented:** integrated inline document holder, increases data input speed.
- **Ultra mobile:** lightweight and folds completely flat to fit in any laptop bag.

Design: stylish anodized aluminum design.

Dimensions: 230 x 326 x 40 mm (W x D x H)
Weight: 700 gr
Product code: BNETR
Document holders bring keyboard, document and screen into a straight line for comfortable working. When documents are placed to the side this causes unnecessary strain on the neck.

Using an in-line document to bring everything into a straight line shortens viewing distances, increasing productivity.

BakkerElkhuizen FlexDesk 640

- Multi-functional: Refer to documents and make notes using the writing slope, which slides over the keyboard when needed.
- High quality: Smooth work surface, easy gliding rails, and rigid design using thick acrylic.
- Storage: Built in pencil storage and storage space for keyboard underneath.
- In-line workstation: Creating a straight line of vision from keyboard to screen.
- Height adjustable: 4.5 - 7 inches for good alignment with the screen.

Dimensions: 515 x 380 x 110 mm (W x D x H)
Weight: 2.2 kg
Product code: BNEFDESK640

BakkerElkhuizen Flex-Desk 630 Whiteboard

- Multifunctional: document holder and writing slope
- Creates an in-line workstation: document holder is placed between screen and keyboard, that prevents undue head and neck movements
- Height adjustable (120 - 185 mm): good alignment to the screen
- Handy: write notes with a whiteboard marker on the work sheet.
- Space under front side: 55 mm

Dimensions: 485 x 370 x 120 mm (W x D x H)
Weight: 2.5 kg
Product code: BNEFDESK630WB
**BakkerElkhuizen Q-doc 515**

*In-line workstation:* Creating a straight line of vision from keyboard to screen.
*Ergonomic:* Decreases neck pain, eye strain and discomfort and increases data input speed.
*Height adjustable:* 7 positions (12" - 46") for best viewing angle and alignment to the screen (4.75 - 9.5 inches at the back).
*Strong:* Supports all kinds of documents, even heavy files.
*Handy:* Allows storage of full-size keyboard.

Dimensions: 515 x 290 x 120 mm (W x D x H)
Weight: 1.2 kg
Product code: BNEQDOC515

**BakkerElkhuizen Q-doc 415**

*In-line workstation:* Creating a straight line of vision from keyboard to screen.
*Ergonomic:* Decreases neck pain, eye strain and discomfort and increases data input speed.

*Smart:* Lightweight and portable, folds flat.

Dimensions: 370 x 280 x 27 mm (W x D x H)
Weight: 480 gr
Product code: BNEQDOC400
The top of a monitor should be roughly in line with users eyes. This optimum position increases comfort and reduces the risk of injury. Productivity also goes up by 10% compared with an incorrectly positioned screen (Sommerich et al., 1998).

To reduce eye strain and ensure easy long term viewing of the screen it should be placed roughly an arms length away when a user is sat correctly.

### BakkerElkhuizen Q-riser 100

**Fixed:** A fixed and optimised viewing angle of 30 degrees.  
**Suitable:** For both flat screen and CRT monitors.  
**Smart:** Space to store a full-size keyboard.  
**Cable management:** Integrated.  
**Material:** high-quality clear acrylate. Using acrylate creates a stable surface for heavy binders.

- **Dimensions:** 310 x 280 x 105 mm (W x D x H)  
- **Weight:** 1.1 kg  
- **Product code:** BNEQR100

### BakkerElkhuizen Q-riser 130

**Adjustable Height:** 5 settings for optimal viewing angle (2 - 3 - 4 - 5 - 6 inches).  
**Smart:** Storage underneath stand.

**Suitable:** For flat screen monitors.  
**Material:** Clear acryllic.

- **Dimensions:** 310 x 265 x 60 mm (W x D x H)  
- **Weight:** 1.1 kg  
- **Product code:** BNEQR130
BakkerElkhuizen Q-riser 140

Adjustable Height: 5 settings for optimal viewing angle (2 - 3 - 4 - 5 - 6 inches).
Smart: Maximize storage with space under stand.
Cable management: Integrated cable holder.
Suitable: For both flat screen and CRT monitors.
Material: Clear acrylic.

Dimensions: 370 x 300 x 60 mm (W x D x H)
Weight: 1.7 kg
Product code: BNEQR140
The top of a monitor should be roughly in line with users eyes. This optimum position increases comfort and reduces the risk of injury. Productivity also goes up by 10% compared with an incorrectly positioned screen (Sommerich et al., 1998).

A monitor arm allows the screen to be easily positioned for different tasks and when the user moves position for comfort. Another benefit of a monitor arm is that more space is created on the desk.

### Space-arm Single
- **Ergonomic:** height range 33-62 cm (top of 19-inch screen), depth range 25-58 cm.
- **Modular:** can be extended from single to double or triple screen.
- **Gas spring technology:** quickly and easily adjustable by any user. Ideal for flex workspaces.
- **Universal:** VESA 75/100, clamp range up to 100 mm, grommet (eyelet) up to 60 mm.
- **Load-bearing capacity:** 1/4 kg, 2.25/7.5 kg, 7/14 kg (stronger gas spring on request).
- **Practical:** 1-8 monitors on a single hub (or base).
- **Dimensions:** 521 x 65 x 464 mm (W x D x H)
- **Weight:** 3.3 kg
- **Product code:** BNESP (Multiple versions)

### Space-arm Dual
- **Practical:** 1-8 monitors on a single Hub.
- **Universal:** VESA 75/100, clamp range up to 100 mm, grommet (eyelet) up to 60 mm.
- **Ergonomic:** height range 33-62 cm (top of 19-inch screen), depth range 25-58 cm.
- **Gas spring technology:** quickly and easily adjusted by any user. Ideal for flexwork stations.
- **Load-bearing capacity:** 1/4 kg, 2.25/7.5 kg, 7/14 kg (stronger gas spring on request).
- **Dimensions:** 500 x 65 x 500 mm (W x D x H)
- **Weight:** 6.9 kg
- **Product code:** BNESPD
Smart Office 11

Universal: Suitable for virtually any monitor.
Installation: Easy installation using a clamp and bolt mechanism.
Layout: Cables are concealed inside the arm.
Handy: Base features a USB port and audio slots.
Flexible: Screen can be used flat, vertically and horizontally.

Dimensions: 550 x 115 x 520 mm (W x D x H)
Weight: 3.0 kg
Product code: BNESO11

Smart Office 12

Universal: Suitable for virtually any monitor.
Installation: Easy installation using a clamp and bolt mechanism.
Layout: Cables are concealed inside the arm.
Handy: Base features a USB port and audio slots.
Flexible: Screen can be used flat, vertically and horizontally.

Ergonomic Work with two screens.

Dimensions: 1085 x 140 x 478 mm (W x D x H)
Weight: 5.5 kg
Product code: BNESO12
Switching between sitting and standing while working creates more variation in posture throughout the day. This reduces discomfort in the back, neck and shoulders compared with sitting at a regular desk (Choi, 2010; Rabbit et al, 2008; Hedge and Ray, 2004; Karlqvist, 1998).

The effect of alternating between standing and sitting postures results in concentration levels remaining higher for longer (Ebara, et al., 2008). Work performance and the quality of output also improves. (Garrett et al, 2016; Choi, 2010; Hedge and Ray, 2004).

BakkerElkhuizen WORK & MOVE Desk

Easy to change: you only set your desired sitting and standing height once.
Version: available in two versions.
Adjustment: the table is easy to adjust in height.

Dimensions: 1600 x 800 x 650 mm (W x D x H)
Weight: 5.2 kg
Product code: BNEWMDBTW160

InnoDesk

Easy: No tools required for assembly thanks to our patented Twist & Lock™ system
Automatic: Height-adjustable using the WORK & MOVE (SitStandCOACH en PitStops) software supplied or the on table controls.
Design: Award winning modern European design
Assembly time: Under 5 minutes.
Height: 25.3 - 52.75 inches

Dimensions: 1600 x 800 x 650 mm (W x D x H)
Weight: 55.3 kg
Product code: BNEIQSSDB155
**BakkerElkhuizen Honeycomb**

**Multi-functional**: Suitable for a variety of uses such as meetings, seminars, touchdown working, lunch or a reception.

**Easy**: Adjust the height using the central button

**Height**: 23.8 - 49.8 inches

**Mobile**: Place anywhere thanks to its rechargeable battery

**Shape**: Honeycomb, allowing for modular use and multiple set-up options.

Dimensions: 900 x 900 x 605 mm (W x D x H)

Weight: 57.5 kg

Product code: BNEHCT

**BakkerElkhuizen Sit-Stand Desk Riser**

**Easy and smooth**: adjustable in height by integrated gas springs.

**Unique**: the adjustment mechanism maintains the centre of gravity and prevents instability.

**Convenient**: standard integration with tablets and smartphones.

**Height**: 15 different adjustable positions.

**Range**: extra large adjustment range (150-500 mm) that will fit all users.

**Simple**: easy to operate with conveniently placed lever handles.

Dimensions: 890 x 590 x 150 mm (W x D x H)

Weight: 23.0 kg

Product code: BNEASSDR

**Honeycomb Dlite**

**Mobile**: lightweight, so easy to move.

**Simple**: the height of the desk is easy to adjust (30,03 - 44,85 inch)

**Multifunctional**: suitable for numerous purposes.

**Shape**: unique and modular thanks to the honeycomb design.

**Variation**: enables effective alternation between sitting and standing during work.

**Preventative**: prevents complaints by simply changing position.

Dimensions: 620 x 570 x 690 mm (W x D x H)

Weight: 18.5 kg

Product code: BNEHCDTB
Footrests are essential for people who can not sit with their feet flat on the floor when the rest of their workstation has been set up to support a good posture. This often happens with fixed height desks.

The adjustable range, the angle and a wear-resistant surface are important.

**Basic 952**

<table>
<thead>
<tr>
<th>Ergonomic: Height adjustable (2.25 - 10.5 inches) and adjustable angle provides stable support for the feet.</th>
<th>Comfortable: Contoured foot platform to minimize slip.</th>
<th>Adjustable: Easy to adjust with feet.</th>

A desktop PC placed on a desk under the monitor takes up a lot of space. The alternative is often to place the PC under the desk on the ground. This increases the risk of dust getting into the PC, makes cleaning more difficult and crucially; reduces the space to move legs and feet under the desk.

A CPU holder enables the PC to be hung under the desktop keeping the PC off the floor and creating space.
Acoustic solutions

We experience various types of noise pollution. If the sounds we hear are too loud they can become distracting especially when noise continues over a long period. If you can hear the conversations being held around you or other annoying sounds the ability to focus on work may be negatively affected.
Experts recommend not carrying loads heavier than 8 to 14 lbs by hand. The variation depending on distance, frequency and gender (Mital et al., 1993).

A bag containing a laptop and other content regularly weighs in excess of this recommended maximum. A trolley or rucksack is suggested as a safer alternative to avoid discomfort and injury.

TCG717 rolling laptop bag

- **Versatile**: suitable to transport both your personal and your business items.
- **Practical**: multiple compartments to properly store your belongings separately.
- **Large**: this case fits laptops up to 17.3”.
- **Materials**: soft, sturdy materials and a solid telescope arm.
- **Ergonomic**: the telescope arm helps you easily transport the laptop and accessories.

- **Dimensions**: 455 x 210 x 380 mm (W x D x H)
- **Weight**: 3.3 kg
- **Product code**: BNETCG717

Mouse Pads & Wrist Rests

Wrist rests provide a guide that helps keep the arm, wrist and hands straight. This prevents over extension of the wrist which occurs when the wrist bends beyond neutral. Holding the wrist in this position for an extended period, which happens when typing and using the mouse, is a cause of discomfort and injury. Keeping the wrist off of the cold, hard desk surface also has benefit.

BakkerElkhuizen The Egg Ergo Mouse Pad

Unique design: The Egg-form follows the natural mousing pattern.
Hygienic: Antibacterial surface.
Comfortable: Thermal-insulating top surface keeps your hand away from the cold, hard desk surface.
Productive: Smooth surface provides accurate mouse control.
Eco: Recycled material.

Dimensions: 230 x 2 x 300 mm (W x D x H)
Weight: 60 gr
Product code: BNEEMP

BakkerElkhuizen Trapezium Wrist Rest Compact

Unique design: Trapezium form follows the natural arm and wrist position.
Options: For standard or compact keyboards.
Hygienic: Antibacterial technology.
Comfortable: Cushioning gel supports wrists.
Ergonomic: Keeps your wrist in line with hand and arm.
Size: 13 inches wide for compact keyboard or 19.25 inches for full-size keyboards.

Dimensions: 330 x 80 x 13 mm (W x D x H)
Weight: 275 gr
Product code: BNETWRC
**BakkerElkhuizen Trapezium Wrist Rest Standard**

**Unique design:** Trapezium form follows the natural arm and wrist position

**Hygienic:** antibacterial technology

**Comfortable:** soft and firm cushioning gel supports wrists

**Ergonomic:** keeps your wrist in line with hand and arm

**Size:** 49 cm wide is ideal for full-size keyboards (33 cm wide for compact keyboards also available)

**Eco:** recycled material

**Dimensions:** 490 x 80 x 15 mm (W x D x H)

**Weight:** 490 gr

**Product code:** BNETWRS
Privacy filters protect laptops and mobile devices against others looking at your screen by blocking the image from everyone except the user of the device. This means that mobile employees can work safely while travelling and in public places. This reduces the risk of expensive data breaches and can help organizations comply with data protection standards such as ISO27001.
